To Whom It May Concern;

It is with great pleasure that we write this letter to recommend Matt Wilson and Second Nature to future clients. Matt Wilson designed our front and back yard entertaining areas, helped us create interesting and artistic focal points and developed well thought out hardscape and planting arrangements. His unique designs are created from his attentive listening and thoughtful consideration of what his clients are striving for.

I am sure you will agree that Matt's attention to detail is unsurpassed. His designs have the power to transform a yard into the paradise of your dreams. The vendors and contractors he recommends are professional and responsible. Every one of Matt's designs we've seen completed has taken our breath away. A few years ago while on the Lafayette Juniors Kitchen Tour we walked into one home's backyard and new right away that the landscape designer was the one to make our dreams come true. He was able to transform our ideas into the plan we'd been hoping for, but with so much more potential and eye catching details.

Second Nature is a landscape design firm that will surpass your expectations and make your yards into beautiful extentions of your home.

Sincerely,

Thomas and Jill Tarkoff
